To whom it may concern:

Winco of South Texas has worked on several large projects for us over the last 7 years. We have been thrilled to work with Winco management and their personnel, as they have been extremely compliant with our demanding request and surprisingly pleasant to work with. Their company appeals to us because of their versatility in solving such a wide range of service related problems at a very reasonable price.

We are more than happy to recommend Winco of South Texas to any company that is looking for excellence in professional service. Our hotel maintains high standards for contractors and Winco of South Texas seems to always meet and or exceed our expectations on each project.

Please feel free to call if I can further aid you in this regard.

Ernesto Rodriguez
